Enjoyed ice-cold, our honey-wine-parsley cocktail, brewed according to a recipe handed down from Roman monasteries, has a taste reminiscent of old sherry or port. It is also delicious hot - - stimulating as a morning drink and soothing in the evening.

**THE POSITIVE EFFECT
OF MODERATE WINE CONSUMPTION
IN IMPROVING RESISTANCE TO INFECTION
HAS BEEN RECOGNIZED
SINCE THE DAYS OF THE ROMANS**

WineMead activates the heart, muscles and glands, regulates blood pressure and has anti-inflammatory properties. It can be used as gentle alternative protection for the blood vessels and can help improve their elasticity. The natural ingredients in this honey-wine-parsley cocktail are imbued with Mother Nature's vitality. Without chemical additives.

EVEN WINE ALONE
is considered to be
the most useful drink,
the best-tasting medicine
and the pleasantest food

THE ADVANTAGES OF HONEY
in promoting health are undisputed,
with Vitamin C, B₁, B₂, B₆, Biotine, pantothenic acid
and numerous minerals and trace elements

FRESH PARSLEY
contains Vitamin C and E
and has an extremely high Provitamin A content.
Before gladiator fights, Roman heroes were given parsley,
which originated in the eastern Mediterranean,
to improve their strength, reaction time and strategic thinking.
